

COMPANY BROCHURE

# ABOUT CONTRIBUTION OF THE PRISES

M/S TEJAL ENTERPRISES (Driving Comfort) has been running successfully from the last 16 years which is based in Western India. It was founded by late Shri Hasmukh A Khara and is currently run by his sons Kaushal H Khara and Tushar H Khara.

We have been a leader in providing top quality Tyre utility products and accessories to the leading tyre and vehicle manufacturing organizations in India and abroad.

We manufacture a large range of tyre service products which include Tyre Pressure Gauge, Tyre Depth Gauge, Water Ballast Adaptor, Extension Valves, Working Valve Caps among others with brand name OUTIL™

Domestically OUTIL<sup>™</sup> is known for its world class quality for tyre utility tools and accessories. It is a recognized leader for good quality tyre utility tools. We have diversified into tractor utility products that includes Tipping Trolley Set,couplers. We have a range First Aid Kits(as per CMVR also) and are supplying digital tyre utility tools imported from reputed International companies.

Our USP is "we create an opportunity to work with our prospective clientele to give them a product which will add them a value to their association and would strengthen their brand."

We care about your brand and will do everything possible to create and deliver a perfect product. In addition, the quality control is meticulously monitored. We ensure that all our products pass the highest quality standards and this is our commitment.

We continuously keep on adding new and innovative products to address to the needs of the industry and to make the whole vehicle experience smoother.

TYRE PRESSURE GAUGE WITH RESET BUTTON (TE-01)

POCKET WITH KEY RING DIGITAL TYRE GAUGE (TE-02)

DIGITAL TYRE PRESSURE GAUGE (GUN TYPE) (TE-03)

TYRE TREAD DEPTH GAUGE 0-25MM PLASTIC (TE-05)

DOUBLE SEAL VALVE CAP (TE-20)

TUBELESS TYRE PUNTURE KIT

(TE-07)

# BENEFITS OF PROPER USAGE OF TYRE PRESSURE GAUGE

- Tyre life increases
- Driving is more smoother
- Mileage of the vehicles improves
- Maintenance cost of the vehicle is less over a period of time

**FOOT PUMP** 

(TE-19)

Regular usage of pressure gauge results in minimizing claims in new vehicles under warranty.

TYRE MARKER PEN TYPE (TE-29)

CHALK FOR TYRE MARKING
(TE-30)

TYRE MARKER (TE-31)

VALVE PIN FOR TYRE VALVE (TE-32)

VALVE COR REMOVER FOUR WAY (TE-36)

HAND GLOVES CUT RESISTANT (TE-34)

#### PERMANENT TYRE MARKER

Permanent Mark pens are for permanent marking on tyres which endures various Textile Processes under acidic/alkaline Chemicals and High Temperature & Pressure condition. The Markings are indelible which dries instantly and does not bleed and stain.

HAND GLOVES COATED (TE-35)

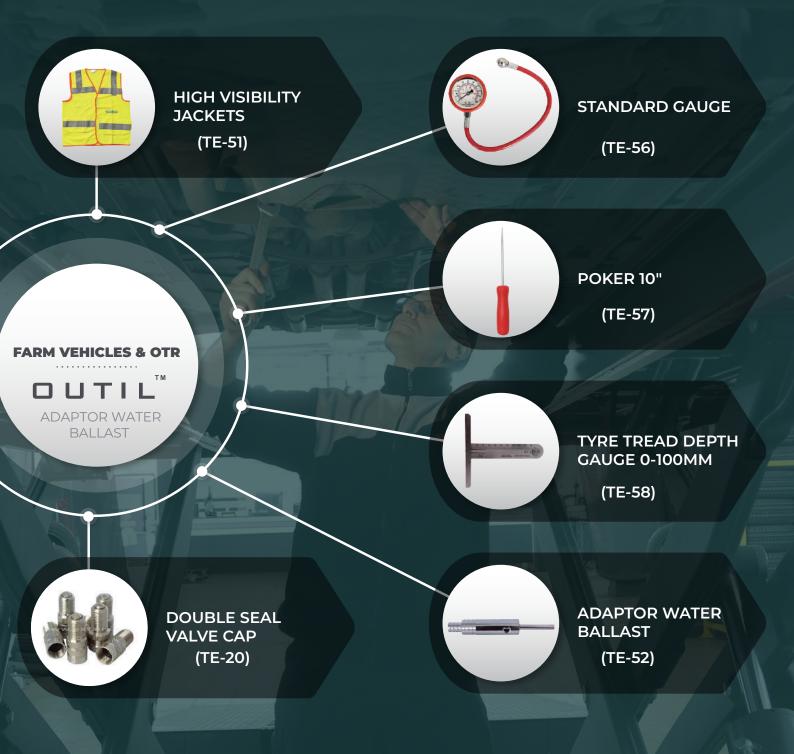

#### **DUST CAPS**

- Low cost product and value for money.
- Easily fits in the valve thread of the tyre
- Does not let mud enter unless it is removed.
- Air pressure is not lost.
- The tyre runs smoothly on correct air pressure.

#### TYRE DEPTH GAUGE

Tyre tread is the raised rubber of the tyre which contacts the road. It is handy tool for passenger car, commercial vehicles as well as OTR vehicles as timely checking of tyre wear helps in minimizing errors and maximizing tyre life Most tyre tread depth gauges measure in 32nds of an inch and millimeters Worn rubber can dramatically reduce stopping distances, as well as affecting steering and cornering ability.

#### **ADAPTOR WATER BALLAST**

Ease of water ballasting in tractor.

Ballasting of the Driving wheels is recommended to INCREASE DRAW BAR PULL / TRACTION of the Tractor. Ballasting also helps in increasing TYRE LIFE as it reduces wheel slip with primary tillage or other heavy implements. DRIVING COMFORT too improves due to ballasting.

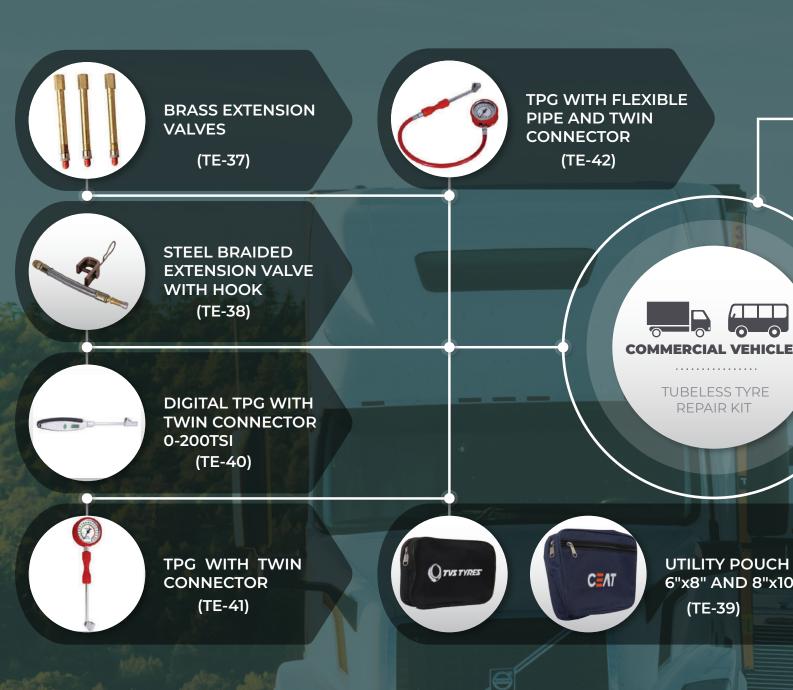

It to save time for filling the water & to avoid continuous personal attention while filling the water.

#### BENEFITS OF PROPER USAGE OF TYRE PRESSURE GAUGE

- Tyre life increases
- Driving is more smoother
- Mileage of the vehicles improves
- Maintenance cost of the vehicle is less over a period of time

Regular usage of pressure gauge results in minimizing claims in new vehicles under warranty.

#### **TUBELESS TYRE REPAIR KIT**

Essential for vehicles with tubeless tyre, this Car Tire Repair Kit will let you repair the puncture quickly and effectively and have you on your way again within minutes. The handles on these tools are made from metal and have a great grip. Quick and easy repair tyre in short time.

#### **RECOMMENDED FOR**

Maximum rim hole thickness at 156"/4mm.

#### **USAGE**

65PSI/4.5 Bar cold Inflation pressure maximum

FIRST AID KIT 13-PRODUCT (TE-33)

FIRST AID KIT : CMVR (TE-67)

FIRST AID KIT 19 (TE-50)

#### **FIRST AID KIT**

This First Aid Kit is a necessity for all to keep with themselves. These three points govern all the actions undertaken by a first aider :

- Prevent further injury
- ◆ Preserve life
- Promote recovery

We can Provide First Aid Kits as per Motor vehicles Act in India. This can be customised as per requirement in OEM.

#### **PRODUCT FEATURES**

#### **PERFORMANCE**

Cools the water in bottle to a temperature well below the ambient temperature, even in hot external conditions. Helps quench the thirst in minutes.

#### **STORAGE**

Accommodates 1 Ltr water bottle in the cooling cavity. Provides additional insulated storage capacity (2 Nos. of 1 Ltr water bottle).

#### DESIGN

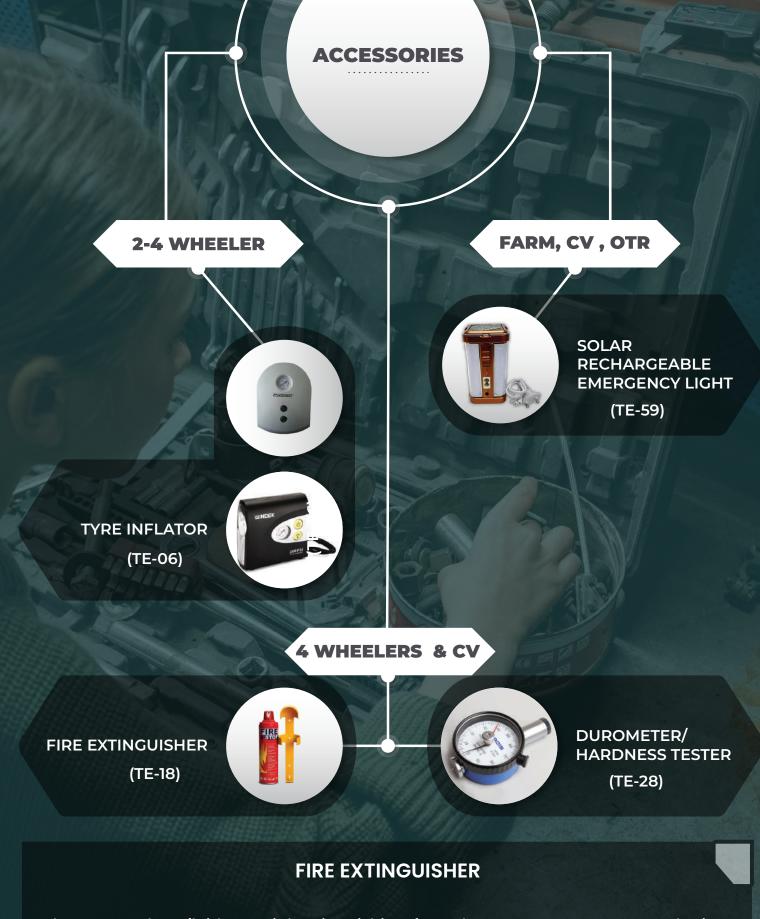

Robust design to sustain vibrations and hiccups due to road bumps. Water resistant & splash resistant exterior.

#### **SAFETY**

No gas inside, hence, safe and reliable. Made of environmentally safe material.

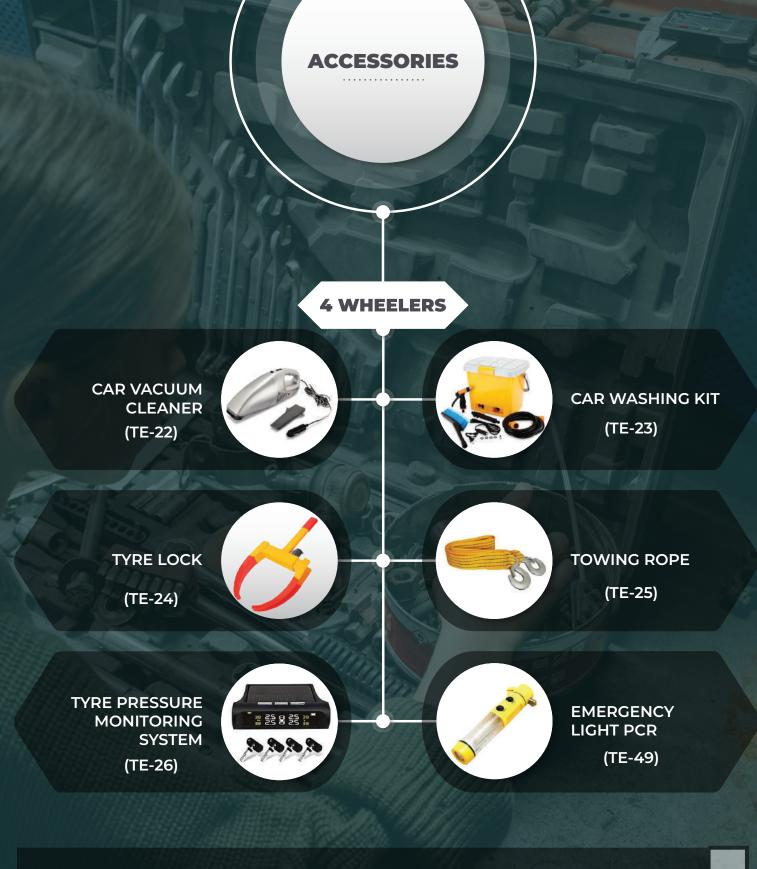

#### **DURABILITY**

Rustproof components for long life of the product.

Flame retardant fluid. Special Extinguishing formula To Impregnate Around Minor Fires Whatever Their Cause, So To Avoid Flame Expansion. It is also possible to Extinguish minor fire. No Toxic, Environmentally safe, Ozone friendly.

Use: Spray Directly at the base of flames .If Initial Application does not extinguish fire call local emergency number of fire department .

#### WHEEL LOCK

Internal use antirust processing, appearance is made of the lacquer that bake welded. Using mechanical gearing structure principle, the design is novel, easy to use, With technical opening, no special tool box is very difficult to open, Can be adjust according to tire size arbitrary scale.

# TYRE MOUNTING/DEMOUNTING TOOLS FOR COMMERCIAL VEHICLES

### BEAD SLIDE HAMMER BEAD BREAKER

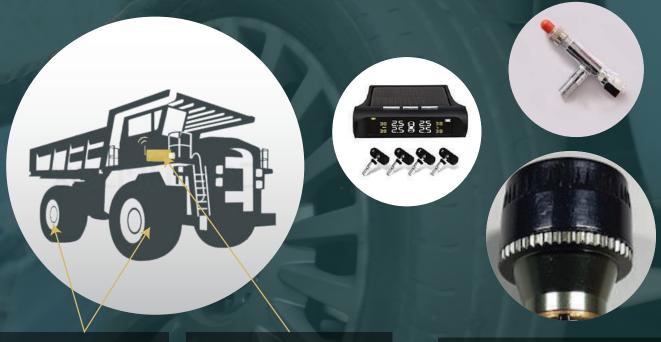

Removing the tire bead seating from the rim flange after long-term use is not easy without the right tools. The stubborn sealing can take hours to unseal. This bead breaker will ease this Job for you.

# TUBELESS MOUNTING & DEMOUNTING TOOLS

You can easily mount & demount a tire from its rim within two minutes. Please use tire lubricants before mounting and Demounting a tire properly seal the bead, act as a rust inhibitor and prevent bead damage.

# TPMS Solution (On road & Off Road)

Our lot platform enables a fleet operator to monitor performance of tyres in real time & improve operational efficiency

**Sensors on Tyres** 

Proprietary
Gateway/Interface

**Customer Interface** 

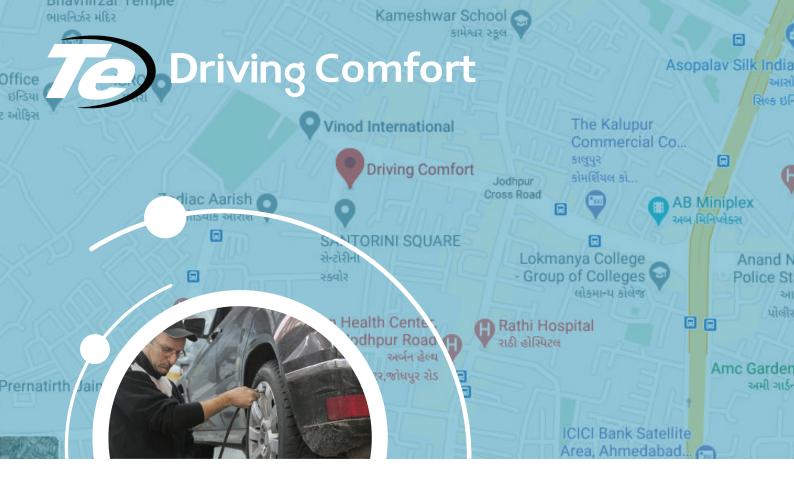

Sensor (with T adapters) are installed on the valve of the Tyres externally. The sensors communicate with Gateway.

Sensors specification is for Pressure up-to 232psi and Temperature upto 125 degC

#### **TPMS Platform features**

#### **Our Current Offerings**

- Tyre Pressure
- Tyre Temperature
- GPS location & Speed of Vehicle
- Alerts / Notifications in case of abnormalities
